

St. Louis Post-Dispatch Coverage: 1874-1922

To stand at the crossroads of U.S. history, start here.

At the turn of the 20th century, St. Louis was the fourth largest city in the U.S., home to a large population of German and Irish immigrants, and a major crossroads for the migration of Americans to the West and North. The *St. Louis Post-Dispatch* captures this movement and the growth of a nation, and provides a Midwestern perspective on major events of the day.

The *St. Louis Post-Dispatch* was noted for its investigative reporting and human interest stories. Its founder, Joseph Pulitzer, who later became known as “the father of yellow journalism,” used this platform to expose fraud, combat public evils, and fight for the common man.

It was the incubator for several well-known writers, including Mark Twain, who wrote for the newspaper from 1874 to 1891. As Joseph Pulitzer’s first newspaper, the *St. Louis Post-Dispatch* is an especially important research tool for journalism scholars today.

Big events. A single access point.

Whether they search for a specific topic or click through issues of the *St. Louis Post-Dispatch* (1874-1922) from cover to cover, your researchers can follow events such as the construction of the Wainwright Building, one of the world’s first skyscrapers; track the exploits of Jesse James and the James Gang; marvel at the devastating forces of the St. Louis Cyclone of 1896; and experience Nikola Tesla’s first public demonstration of radio communication. They can explore the 1904 World’s Fair, where the ice cream cone first became popular, and celebrate the victories of athletes at the first Olympics held within the United States.

Part of ProQuest Historical Newspapers™, the *St. Louis Post-Dispatch* is cross-searchable with other titles on the ProQuest historical platform, such as the *Chicago Tribune*, *New York Tribune*, *The New York Times with Index*, and *The Guardian*. This provides researchers with contrasting perspectives on significant regional, national, and international events.

Focus on research instead of the mechanics of finding data.

ProQuest makes it easy for both novice researchers and information professionals to find relevant information quickly, with basic and advanced search options. Searches can be confined to 20 specific article types and dates to focus on the most relevant information. Each newspaper page is zoned into article images, and each newspaper image is supported with searchable ASCII text. Combined, these features mean faster, more effective searches for users. ProQuest digitizes documents at a high resolution to deliver clean, readable images, and highlighted search terms focus readers on the most relevant content.

Researchers can sort their results by oldest, most recent, or most relevant. In addition, articles that originally spanned multiple pages of a newspaper are “threaded” together, appearing as one continuous image and improving readability. Users can view and easily download articles, front pages, photos, display ads, and more in PDF format. The “My Research” summary feature can be used to track recent searches, save articles, email documents, create a bibliography, export citations, and create Web pages.

Your single source for centuries of continuous historical news coverage.
