

Pittsburgh Courier

Coverage: 1911–2002

To witness how black political activism helped shape America, start here.

Urging African-Americans to actively participate in shaping their political destinies—and often leading the charge—the *Pittsburgh Courier* was once the most widely circulated black newspaper in the U.S. in the early 20th century.

The newspaper campaigned for increasing the number of black physicians and opening a hospital to serve the black community in Pittsburgh, where white facilities often refused to provide services. In the 1930s, the newspaper led a nationwide protest against the *Amos 'n' Andy* radio show and its advertisers because of the media's offensive portrayal of African-Americans. The publication's "Double V" campaign during World War II demanded equal rights at home for black soldiers risking their lives overseas.

Through the decades, intellectuals and influential writers such as W.E.B. DuBois, Marcus Garvey, James Weldon Johnson, Zora Neale Hurston, and others have written columns or reported for the newspaper. For access to these writers and more, ProQuest offers more than 90 continuous years of the *Pittsburgh Courier* online.

Focus on research instead of the mechanics of finding data.

ProQuest makes it easy for both novice researchers and information professionals to find relevant information quickly, with basic and advanced search options. Searches can be confined to specific article types and dates to focus on the most relevant information. Each newspaper page is zoned into article images, and each newspaper image is supported with searchable ASCII text. Combined, these features mean faster, more effective searches for users. ProQuest digitizes documents at the highest possible resolution to deliver clean, readable images, and highlights search terms to focus readers on the most relevant content.

Researchers can sort their results by oldest, most recent, or most relevant. In addition, stories that originally spanned multiple pages of a newspaper are “threaded” together, appearing as one continuous image and improving readability. Users can view and easily download articles, front pages, photos, display ads, and more in PDF format. They also can use the “My Research” summary feature to track recent searches, save articles, email documents, create a bibliography, export citations, and create Web pages.

Your single source for centuries of continuous historical news coverage.
